- Frameworks and Libraries: Angular, Vue.js, RxJs, Tailwind, PrimeNg, NgRx, Vuex
- Tools: Platforms: Nx, Webpack, Git, Cypress, Azure DevOps, Monaco Editor, Swagger UI, YouTrack

Experience

Junior Front-End Developer | ZF Group | February 2023 – Present

ZF Group, a global automotive leader, runs factories worldwide. In my role, I'm in a multinational agile Scrum team, processing and visualizing production data for real-time factory insights.

Junior Front-End Developer | Nuage Groupe | 2021 – 2022

At Nuage Groupe, I contributed to several fintech applications like Keler, Hungary's national treasury system, focusing on developing a platform for managing bank transactions and international payments, or PAYupp, a fintech solution enabling mobile payments.

Key responsibilities:

- Developing Angular web applications in collaboration with project managers, testers, and back-end developers as part of an agile Scrum team.
- Executing pixel-perfect UI development from design mock-ups using CSS, Sass, Tailwind, Bootstrap and PrimeNg.
- Utilizing Git for version control.
- Contributing to the optimization of our Nx monorepo.
- Using state management in Angular with NgRx.
- Authoring Cypress end-to-end tests both with using mocks and without mocks.
- Doing a spike on testing with Playwright and implement it in our Azure pipeline.
- Providing code reviews, bug resolution, hotfix implementation, and their documentation.
- Active involvement in Scrum processes, including meetings, planning, and presentation of work.
- API integration with RxJs and Swagger UI, ensuring adherence to clean code principles.
- Staying updated with industry trends.

Creative Copywriter | Greenroom, Cluso, Leo Burnett | 2015 - 2021

Before switching careers, I have worked as a copywriter on award-winning advertising campaigns for multinational brands at various agencies like Greenroom Kft. and Cluso Kft.

Education

Budapest Business School | Advertising Manager | 2010 – 2013
